Your action 2: “Our tone”!

We will have different ways of talking about human-centricity during the conference. What should our tone be?

Why this conference, why now?

Industry 5.0 is more than a tech upgrade

It's a new paradigm where human-centric work, advanced technologies and sustainability converge to create resilient, inclusive industries.

But this shift demands more than new tools – it demands new ways of working.

That's why this conference brings together research, policy and practice to explore how we:

- *Empower workers to develop future-ready skills*
- *Build learning organisations that adapt and grow*
- *Promote participative, innovative workplaces*
- *Align digital, green and social transitions*

Join us to shape the foundations of Industry 5.0 together

What is the Horizon Europe Bridges 5.0 project about?

Steven Dhondt, TNO (Netherlands)

What is the Horizon Europe Bridges 5.0 project about?

- Maintaining and improving the human-centric, sustainable and resilient Industry in Europe …

  - … by understanding what **Industry 5.0 company policy** is
  - … by understanding what this means for **employee skills**
  - … by understanding which **social model** is needed to support this
  - … by identifying how to make better use of **Industrie 4.0-technologies**
